Town of Mount Pleasant Adjustments for Leaks Customer Service Policy

1. High bills due to leaks may be eligible for an adjustment, if the following criteria are met:

a. The Water Superintendent must verify that the high bill is due to a leak in the customer's plumbing.

b. The leak must result in a meter reading with water usage 400 percent above the customer's average consumption for the prior 6 months.

c. The customer must show proof (parts purchased or plumbers' receipt) that the leak has been repaired and **completes the Leak Adjustment Form**.

d. Only one modification may be granted to a customer within 365 days.

e. The customer must also have Town sewer. The sewer portion will be adjusted for the leak based on the water 6-month average.

2. If the bill meets these criteria, then the sewer portion of the bill may be reduced to the 6-month average and a discount will be applied to the sewer portion of the bill. (Part 5 Code of Ordinances).
